

LEVEL UP! – LEARNING NETWORKS IN EUROPE

Adult education organisations in Europe, that are willing to act as receiving and sending organizations for European learning mobilities need support in the fields of application, organisation and implementation. Due to this strategic partnership interested adult education organisations come together, circulate and exchange their experiences referring to applying for learning mobilities as well as obtain, consult, prepare and send participants abroad and organize and implement concrete learning opportunities for foreign learners.

Project results:

With support of the collaborative partnership every partner will:

1. gain first-hand information via exchange and training about:
 - how to apply for a mobility project as well as
 - how to act as a sending organization and
 - how to implement learning activities as a hosting organization and apply for a learning mobility project as part of this project.
2. plan concrete learning offers in the project partner countries
3. agree on participant numbers to reach our main objective of implementing transnational learning activities and experiences for adult educators
4. support the strengthening of their intercultural competences intensely.
